Alesia Jackson posted:

I will always remember how much fun I had as a kid being with my auntie and cousins. There was one time in particular when she took me and my sister with her for an evening out. She put on some music I think it was jazz or something. She said she liked to listen to music like that. I like jazz and easy listening type music so that really made the ride home nice. My aunt was very funny. I have so many memories of her saying something funny, doing something funny or me just laughing at her laughing. I will see her again one day but until then her days here on Earth will live on in my heart and my memories. with love always Alesia.
